Education

Shobhit University

Bachelor of Technology in Computer Science & Engineering

Sep. 2023 – May 2027

Meerut, U.P.

Relevant Coursework

- Data Structures & Algorithms – Operating System

Projects

Stock Market Dashboard | Python, FASTAPI, JavaScript

March 2026

[Link](#)

- Built a web app that displays real-time stock prices, trends, and key financial data in a clean, interactive dashboard.
- Users can track selected stocks, analyze performance using charts, and monitor market movements efficiently.
- Designed to simplify decision-making with quick insights, alerts, and a user-friendly interface.

Career Guidance System | Python, NumPy

December 2025

[Link](#)

- A web app that helps users discover suitable career paths based on their skills, interests, and goals.
- Provides personalized recommendations, learning resources, and roadmap guidance for different careers.
- Simplifies decision-making with structured insights and progress tracking.

Jarvis v2 | Python Automation

April 2026

- A desktop assistant app that performs tasks like opening apps, playing media, and sending notifications via voice/text commands.
- Integrates automation features to improve daily productivity and hands-free control.
- Designed as a smart personal assistant with a modular and scalable system.

Tech Stack

Python • NumPy • HTML • CSS • JavaScript • Git • GitHub • Jupyter Notebook • VS Code

Leadership / Extracurricular

- Selected twice in **Smart India Hackathon (SIH)** and reached semifinals both time
- Tutor for Maths, Science, and English for Classes 6–12
- Creating educational and mindset-focused content on YouTube and Instagram
- Sharing technical learning and projects on LinkedIn
